Mayal Notes

The coast defense battleship Monterey was to leave Mare Island for San Diego direct on April 6, not calling at San Francisco. Her ultimate destination is Callao. She will call at Mazstlan and Acapulco, Mexico.

The San Francisco Chamber of Commerce protested to the Navy Department against sending the Monterey away, to serve as an ally to another country, when she was built to defend the home coast. Secretary Herbert in reply said the Monterey was only sent on a cruise to southern waters and would not be permanently attached to a foreign station.

It is again stated that the Olympia will relieve the Philadelphia at Honolulu and that, after being cleaned in the dock at Mare Island, the Philadelphia will probably relieve the Baltimore as flagship on the Atlantic Station.

The Silver Question.

President Andrews of Brown University, who denies allegiance to either party although he was in the monetary conference as a Democrat, says the Republicans must make concessions to the Silver party. He thinks free coinsge would result in a tremendous revival of business and restoration of values. All the United States gold would pass to Europe, but they would not need it, and if their example was followed by Europe they would never have any backset over the change.

Leaders of the new Silver party have been in conference at Washington. Mr. Sibley, who may be the presidential candidate, made a sanguine report on the prospects in Peronsylvania.

Thirty eight out of fifty Democratic members of the Illinois Legislature have declared themselves unequivocally in favor of free silver.

American Missionaries Alarmed

Secretary Herbert has cabled to Admiral Kirkland, commanding the European squadron, to proceed at once with the U. S. cruisers San Francisco and Marolehead to the Syrian coast to protect American missionaries, who are afraid of a massacre. The Marblehead will go from Gibraltar to Beirut, and the San Francisco from Palermo to Smyrna. Admiral Kirkland is instructed to land marines in force if he finds there is danger.
